

ARLINGTON PUBLIC LIBRARY & ENCORE LEARNING

~~~~~SPECIAL EVENT~~~~~

## Meet the Speaker Series Douglas R. Norton will speak on

### The Science of Climate Change: The 97% View Indicators of Human-induced Climate Change

**Date: Monday, November 14, 2016**

**Time: 3 to 4:30 p.m.**

**Place: Arlington Central Library**

Doug Norton will bring together the most recent scientific information to demonstrate the scientific basis for concern about the changing climate.

With glaciers melting, seas rising, and 14 of the 15 hottest years on record coming this century, the threat of climate change has never been clearer. But with solar, wind, and other clean energy solutions becoming more affordable and accessible every year, neither has the way forward. And with 195 countries signing the historic Paris Agreement to cut greenhouse gases, the world is finally united in working to seize the promise of renewables and create a safe, sustainable, and prosperous future powered by clean energy.

In this multimedia presentation Mr. Norton draws on more than 30 years of research and debate among more than 10,000 researchers around the world. The subject of our changing climate and the role of modern society in forcing that change are issues for every American and for the generations that follow us.

**Registration:** No registration required. This event is free and all are welcome

**Directions:** The Arlington Central Library is located at 1015 N. Quincy Street between Washington Boulevard and Fairfax Drive. Parking is free at the Library or take Metro to Virginia Square on the Orange line.

*This program is jointly sponsored by Encore Learning and the Arlington Public Library. For details, call the library at 703-228-5996 or call Encore Learning at 703-228-2144. See [www.encorelearning.net](http://www.encorelearning.net) for more information on special events, clubs and academic courses for those over 50.*
