

Encore Learning Special Event

## Wastewater Treatment

### Arlington Water Pollution Control Plant

Thursday April 23 2015 10:00 AM to 12:00 Noon

Arlington Pollution Control Plant

This event is free to Encore Learning Members.

This event is limited to 15 Members. Registration required.

This is a guided tour of a complex wastewater treatment plant. The multimillion dollar facility provides five systems (preliminary treatment, primary treatment, secondary treatment, tertiary treatment/chemical addition, and solids treatment) to minimize pollution from waste from all of Arlington.

This is a strenuous walking tour with some outside walking. The County requires that you read and follow their policies and dress requirements (a copy will be provided to each registrant) and that you sign a “Hold Harmless Agreement” at the start of the tour.

Arlington Pollution Control Plant is located at 3151 South Fern St. in Arlington. Take Glebe Road to South Glebe Road (bear left, not right to West Glebe Road). Turn left on South Fern St. Turn right into entrance gate at the plant. Stop for the guard, who will direct you where to park.
